Tencel skin

Optimized moisture absorption!! Natural Mask Sheet

Moisture Transport

Optimization of water absorption

TENCELSKIN is a unique microfiber fabric composed of extremely thin hyper tissues.

These individual fine fiber textures show its optimized absorption due to their regular arrangement, and it can hold large amount of skin tonic.

SKIN Friendly Structure

TENCEL SKIN is composed of extremely thin sized and regular array structure, the friction with skin may create softer and silky feeling.

TENCEL®

Tencel skin mask sheet is a specially developed product for the perfect combination of human skin and skin tonic, it is a new material fabric made of cellulose extracted from natural pulp

Scientific name: Lyocell (LYO + CELL)

Product Features:

Natural pulp is the main raw material

– No pollutants are produced during the production process, and it is biodegraded as eco-friendly material.

Natural Transparency

– Silky texture like genuine silk, softer feeling than cotton, radiance and excellent transparency

Strong durability

– Its strength does not deteriorate even when it is wet.

Excellent water absorption

– When holding skin tonic, it shows excellent adherence to the skin.

Excellent moisture control ability

– Due to the unique structure and arrangement of the fiber, it has moisture control ability and does not create a water layer where bacteria can grow.

main ingredient

Skin soothing

Chamomile flower extract
Chamomile with the meaning of "apples from the ground," has a sweet and refreshing apple scent. It soothes sensitive skin comfortably, helps to keep dry skin soft. In addition, it alleviates skin irritation caused by harmful substances.

Centella asiatica extract
A kind of herb also known as Centella, it is also called as Madecassol. It helps to soothe troubled skin, also alleviates itching of dry skin.

Lifting

Amino Acid Complex
The Amino Acid Complex is composed of the amino acids that consist of skin cells. It grants skin lifting effect by providing amino acid components for health maintenance. It grants elasticity to the skin which loses vitality by directly providing nutrition to the skin.

Adenosine
As a patented ingredient by R&D of Massachusetts medical school, USA, it combines adenine and ribose components. Adenosine protects skin elasticity and helps lifting. It soothes the skin as it is effective to skin troubles.

Skin texture & Pore Care

p-Refinyl (Esculentan Lentil Extract)
p-Refinyl, a patented component of Silab, France, strengthens around the pores to cleanse pores and adjust water and oil balance. It also softens rough skin and helps the completion of transparent baby face skin.

Panthenol
Panthenol, also known as the provitamin B5 ingredient, turns into vitamin B5 when absorbed into the skin, it acts as an excellent moisturizer by combining moisture. It grants the feeling of moisture to the skin by activating the moisturizing of skin itself. In addition, Panthenol is effective in skin soothing with the stable components without irritation symptoms.

Skin radiance & whitening

Glutathione
Glutathione, which is the main ingredient of famous clinics in Korea, has been spotlighted by the effect of skin brightening as a whole. It also blocks skin harmful substances from the skin.

Niacinamide
Niacinamide, which is Vitamin B complex, has heat and light-stable property, absorbed into the skin to help brighten the skin tone as a whole. Other than skin whitening, it also elevates moisture retention and helps to make skin soft and vital.

Water Filling & Nutrition

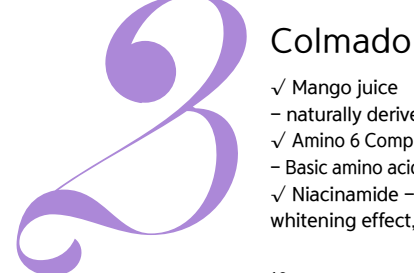

Berry Complex
Berry Complex, which consists of Asai Palm Fruit Extract, Low Sweet Blueberry Extract, and Indian Gooseberry Extract, helps protect skin from harmful substances, prevent skin damage, and helps to keep skin vibrant. In addition, it helps skin soothing care, silky and vital skin care by providing nutrition to exhausted skin.

Beta-glucan
As a kind of polysaccharide much contained in mushrooms, seaweeds, oats and yeast, Beta-glucan is known to have an excellent moisturizing effect. It helps to keep skin vibrant as its excellent skin penetration supplements moisture to the skin. In addition, it plays a role to block irritation from outside by forming the protective film, effective to skin soothing and excellent effect to troubled skin.
